

ATLANTIS RESORT - PARADISE ISLAND, BAHAMAS

Atlantis Paradise Island Resort is one of the largest water-themed resort attractions in the world featuring exciting water slides, relaxing rivers, and soothing pools in a lush immersive, interconnected environment.

The centerpiece of Atlantis is the 20 million gallons of fresh and salt-water pools, lagoons, amazing aquaventures, cascading waterfalls, and the unparalleled presentation of marine habitat and under water formations.

Cove Pool includes large fresh water pools, river rides (lazy, whitewater, tidal) and several waterslides.

Guests experience thrilling rides and marine habitat as they are carried through the Mayan Temple shark tank lagoon via an acrylic tube.

Moving from one feature to the next is effortless on the "endless ride" conveyor system, never having to leave the water to reach the next slide.

Atlantis is truly an aqua wonderland.
