

WAYLON'S WATER WORLD - YUMA, ARIZONA

WAYLON'S WATER WORLD

Waylon's Water World is Yuma's number one waterpark! With 15 slides total, a lazy river, tot's swimming pool, rain fortress, lounge chairs and concession stands this park will keep any family busy all summer long.

The constrictor is the largest slide in the park which includes three 360 degree turns and rafts which carry a family of four. The Rain Fortress is designed to get you wet with multiple spray nozzles, soakers and a massive bucket at the top which holds 350 gallons of water. With temperatures reaching 110 degrees in Yuma, Waylon's Water World is THE place to cool off from the summer heat.

CLOWARD H₂O worked alongside Family Fun to design all filtration and piping systems throughout the park.
